

Toilets

Effective, deep cleaning
for outstanding hygiene

TOTO

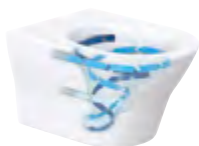

TOTO toilets

The perfect toilet is our benchmark.

Our toilets feature technologies that ensure the highest level of hygiene. We integrate them intelligently into timeless designs, making our products the ideal complement to any bathroom.

With this ambition in mind, all TOTO toilets are equipped with the following standard hygiene technologies: the powerful TORNADO FLUSH, rimless design, and extremely smooth CEFIONTECT glaze.

The perfect interplay of three technologies

TORNADO FLUSH:
Powerful cleaning
with very little water.

TORNADO FLUSH – Uniquely powerful

TORNADO FLUSH is incredibly effective, cleaning the entire inside of the toilet bowl far more thoroughly than conventional flushing systems. Depending on the model, two or three jets create a powerful, circulating whirlpool of water that cleans every inch of the bowl.

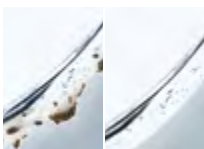

This method of cleaning is far more effective than conventional flushing systems, which pour water down from the rim. It is also much quieter and uses very little water. A single flush can be achieved with just 3 litres of water.

Rimless design:
Easy to clean for
superior hygiene.

Rimless design – For easier cleaning and perfect hygiene

Our toilets have an intelligent shape – without a rim or hidden corners. This open design makes them far easier to clean than other models. It is practically impossible for dirt and bacteria to build up.

Extremely smooth glaze
left: no CEFIONTECT
right: CEFIONTECT

left: hydrophobic
right: hydrophilic
(CEFIONTECT)

CEFIONTECT – For a lasting shine

Unlike conventional ceramic, the CEFIONTECT glaze has an extremely smooth and glossy surface that is made to last.

CEFIONTECT is hydrophilic (=interacts strongly with water). The water spreads effortlessly over the ceramic surface, making it easy to wash away dirt and waste.

Layers of glass are fired on the conventional glaze, making CEFIONTECT especially durable. It's even possible to clean the ceramic with a microfibre cloths without causing any damage.

The special CEFIONTECT glaze helps keep the ceramic surface of your toilet as clean as it was on the very first day.

The benefits of this perfect interplay

- ✓ **The entire inside of the toilet bowl is cleaned thoroughly**
- ✓ **No difficult-to-reach areas**
- ✓ **Dirt-resistant**
- ✓ **Suitable for microfibre cloths**
- ✓ **Uses less water as just one flush is usually enough**
- ✓ **Fewer aggressive cleansers required for cleaning**
- ✓ **Considerably quieter flush than conventional toilets**
- ✓ **No spray or mist during flush**
- ✓ **Improved standard of hygiene**

Avoid spreading viruses and germs with toilets from TOTO

Unique toilet technologies. Confirmed by hygiene expert Prof. Dr. med. Zastrow.

Further details in an
interview with
Prof. Dr. Zastrow

Due to the exceptional technologies, TOTO toilets are among the most hygienic toilets currently on the market. TOTO has therefore asked the hygienist Prof. Dr. Klaus-Dieter Zastrow to test the TOTO toilets for hygiene.

Prof. Dr. Zastrow confirmed that the TOTO toilets with the circular TORNADO FLUSH, rimless design and CEFIONTECT glaze fully comply with the requirements of hospital hygiene and infection prevention. A further spread of intestinal germs is almost impossible with these toilets.

By choosing a TOTO toilet, you can be sure that the toilet does not contribute to the spread of viruses and bacteria in your home.

Overview of our toilets

WC SP

Another angular option with a streamlined, elegant design and slim seat: SP toilet with SP seat.

WC GP

The GP toilet convinces with its graceful, concave design.

WC RP

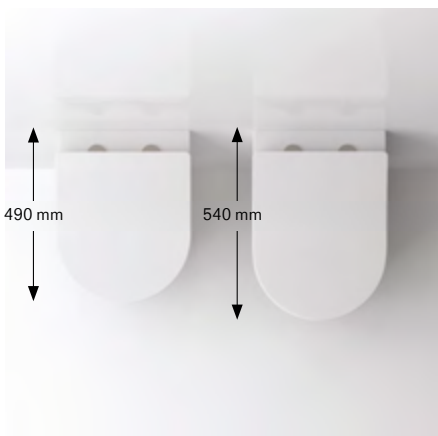

The counterpart to the angular SP toilet, the elegant RP toilet with RP seat has a harmoniously rounded shape.

WC RP Compact

With a depth of 490 mm, the RP Compact toilet is the perfect addition for small bathrooms and guest WCs.

A direct comparison of RP and RP Compact toilet (below).

WC MH

The wall-mounted MH toilet with concealed mounting screws is compatible with the MH seat (left) or slim seat (below).

WC NC

The cut away design makes the NC quick and easy to install. It's compatible with the NC seat (left) or slim seat (below).

WC ES

Compared to the NC model, the ES has a slightly tapered shape. It's possible to combine the ES with the regular ES seat (left) or slim seat (below).

In addition to the wall-hung toilets, both versions of the WC MH and WC NC are also available as a floor-standing „back-to-wall“ version and as a close-coupled toilet with cistern.

CEFIONTECT- Sustainability and care

Standard on all TOTO ceramics

All TOTO Europe sanitary ware, whether toilets, washbasins, bidets or urinals are provided with the particularly durable CEFIONTECT glaze as standard. The glaze was developed by TOTO and only TOTO products feature this glaze.

Cleaning and maintenance

The combination of CEFIONTECT glaze with the powerful TORNADO FLUSH cleans the toilet so thoroughly that often only one flush is sufficient.

The CEFIONTECT glaze also makes regular basic cleaning much easier. There are hardly any special cleaning instructions to be observed, as the surface is very smooth and resistant.

Generally it is sufficient to clean the ceramic regularly with a clean, damp cloth. If it is necessary to use a cleaning agent we recommend a slightly acidic cleaner with acetic or citric acid to work against limescale deposits or an alkaline cleaner for fats and oils (for toilets a commercially available toilet cleaner and the toilet brush is sufficient). TOTO always recommends using a clear cleaner. For the benefit of environment, we do not recommend using aggressive cleaning agents.

Ecology

The CEFIONTECT glaze is designed to be extremely easy to clean. This design makes aggressive cleaning agents unnecessary, and results in less pollutants in our environment.

TOTO

Life Anew

To create a culture of comfortable, healthy living.

Since our founding, we have continuously pursued innovations that offer greater wellness and comfort to daily life.

Honouring the trust that our customers and society place in us, TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.
