

FLEXCOVER

FROM TOILET TO WASHLET®

STAY FLEXIBLE – TOILET TODAY, WASHLET® TOMORROW.

Are your customers unsure about WASHLET®? Would they rather upgrade to one later on?

Customers may not be ready to invest in WASHLET® for financial reasons or due to changing circumstances. With our innovative FlexCovers, you can give your customers the flexibility to upgrade their TOTO toilet to WASHLET® anytime – quickly, easily and efficiently.

HOW IT WORKS:

Compatible TOTO toilets already have openings for the water and electrical connections needed to install WASHLET®. Place FlexCovers over these openings if you want to start using the toilet with its standard seat. To upgrade to WASHLET®, simply remove the toilet seat and FlexCovers, and then install WASHLET®. If the TOTO installation frame is used, it's possible to attach WASHLET® without removing the toilet from the wall.
