new standards  
in hygiene.

# TOTO toilets

## For extra hygiene

TOTO has been designing rimless toilets featuring the powerful TORNADO FLUSH since 2002, selling over 8 million of them around the world so far. The original shower toilet has also been available on the European market since 2009.

The smart flush technology is what makes these toilets true icons in the bathroom. These toilets are known for their incomparable cleanliness after just one flush, less effort required for cleaning, no difficult-to-reach areas and appealing, modern design.

### Toilets in a new look with slim toilet seat

In comparison: slim toilet seat with wallhung toilet MH, NC and ES (from left to right)

#### CONVINCING TECHNOLOGY

- ✓ The entire inside of the toilet bowl is cleaned thoroughly
- ✓ No difficult-to-reach areas
- ✓ Dirt-resistant
- ✓ Suitable for microfiber cloths
- ✓ Uses less water as just one flush is usually enough
- ✓ Fewer aggressive cleansers required for cleaning
- ✓ Considerably quieter flush than conventional toilets
- ✓ No spray or mist during flush
- ✓ Higher standards of hygiene

# The perfect trio

## Unique TOTO toilet technologies

All TOTO toilets include three distinctive standard features: TORNADO FLUSH, CEFIONTECT glaze, and the rimless bowl design. This standard ensures that the flush works especially efficiently, the toilet bowl does not have any impossible or difficult-to-reach areas, and the ultra-smooth surface keeps dirt from accumulating. Together, these make TOTO toilets especially hygienic and well-suited for a wide variety of applications.

### TORNADO FLUSH

The most essential feature of each TOTO toilet is TORNADO FLUSH. Depending on the model, two or three jets create a powerful, circulating whirlpool of water which thoroughly and efficiently cleans every inch of the bowl. The power of the water is bundled and enhanced in a single direction for cleansing without any mist or spray. The flush reaches practically every point inside the toilet bowl, making it nearly impossible for dirt and germs to accumulate.

TORNADO FLUSH:  
The powerful toilet flush

### Rimless Design

The rimless design is a standard feature in all TOTO toilets. The rim is completely open and does not include any ceramic lip under which dirt or bacteria could accumulate. This makes it possible to clean the toilet bowl far more easily, quickly and thoroughly.

### CEFIONTECT

All TOTO toilets include the especially durable and ultra-smooth CEFIONTECT glaze, which makes it practically impossible for dirt and mould to accumulate. Ceramics treated with CEFIONTECT glaze can be cleaned using microfiber cloths without eroding the surface over time.

# More benefits at a glance

## Because quality pays off

All TOTO toilets include TORNADO FLUSH, rimless design and CEFIONTECT glaze as standard features. At TOTO, cleanliness and improved hygiene are essential parts of the company's product philosophy. People can see and feel TOTO's many years of experience in its products.

### Quieter than conventional toilets

Comparative measurements have shown: TOTO toilets equipped with TORNADO FLUSH are far quieter when flushed than conventional toilets.

Laboratory tests have shown that a comparable competing product was 41% louder than the TOTO NC toilet.

### Easy installation

TOTO toilets correspond to all commonly used standards and can be mounted on all conventional cisterns.

The TOTO MH, SG, SP and RP toilets become "invisible" due to the holes in the toilet seat and the fact that it is mounted to the installation frame from below. The result – a sleek look with smooth surfaces that is also easy to clean.

### How quality pays off. Every day.

Investing in TOTO toilets for public areas pays off very quickly. Their high quality and hygiene standards considerably reduce cleaning and maintenance costs.

Cleaning staff	Cleaning time saved/toilet	Reduced cleaning costs/toilet	Cleanings per toilet/day	TOTO toilets	Reduced cleaning time/day	Reduced cleaning costs/day	Reduced cleaning costs/year
20,00 €/H	30 Sec./Toilet	0.17 €/Toilet	3 (depending on building type, average)	50 toilets with TORNADO FLUSH, CEFIONTECT glaze and rimless bowl	75 Min./Day	25.00 € / Day	9,125.00 €/Year

### Soft-close seat and lid

Our proven soft-close seat and lid lowers slowly and silently with a tap of the finger. The advantage: Minimal points of contact enhance people's comfort and hygiene in the bathroom.

### Easy-to-remove toilet seat

TOTO's toilet seats are designed to make it easy to clean each toilet thoroughly. The seat and lid can be removed by simply pressing on the release buttons, guaranteeing simple cleaning.

### WASHLET™ upgrade always available

It is also possible to replace the toilet seat with a shower toilet attachment at any time to enjoy gentle intimate cleansing with warm water.

Users can adjust the water temperature, position and type of spray of the WASHLET™ wand jet for cleaning intimate areas. It also includes a preheated seat and warm air dryer. These features are controlled using an external remote control or control panel installed on the WASHLET™ unit.

To upgrade your toilet to a shower toilet, please be sure that the additional water and power connections are in place prior to installation.

# Award-winning Unique toilet hygiene that sets new standards

Thanks to the extraordinary technologies they contain, TOTO toilets are among the most hygienic available on the market today. This is confirmed by an expert report prepared by one of Germany's most renowned hygiene doctors as well as other awards and independent reports.

## SBZ flush test winner

sbz magazine teamed up with the Esslingen University of Applied Sciences to test the flush attributes of toilets from all prominent manufacturers. TOTO ranked first with all of its models, with the SG toilet earning the highest marks in the test overall. The TOTO toilets all had outstanding flush characteristics and do not produce any spray when installed accordingly.

## Management & Krankenhaus Award

Management & Krankenhaus magazine gave TOTO this award for the outstanding hygiene of its toilets. The committee was convinced that TOTO toilets are especially suitable for places where hygiene is important.

## Environmental medical test

### Result

TOTO toilets essentially rule out the spread of intestinal germs (multi-resistant gram-negative bacteria)

- Test organisms were not found on the bottom of the toilet seat following the flush
- Test organisms were also not found outside the toilet

### Background

TORNADO FLUSH does not produce any mist or spray like conventional flushes. On the contrary: The circulating water creates a pull down to the bottom of the toilet, preventing any contaminated moisture from spreading to areas surrounding the toilet.

## Hygiene certificate

An analysis conducted by doctor for hygiene and environmental medicine Prof Dr med Klaus-Dieter Zastrow. It confirms that TOTO's rimless toilets featuring TORNADO FLUSH essentially rule out the spread of germs and bacteria (read the complete report at [eu.toto.com](http://eu.toto.com)).
